

# *EAST END REGULATORS*

GAZETTE

January 2010

Regulators,

The new year has began, and with it, our first meeting. Marshal Sparks offered the use of the Railroad Car, and even though he couldn't make it himself, got his pard Wade to open and set things up for us. So let me start by saying "thanks boys", we appreciate it.

The meeting began, right around 11 or so, and some 35 members showed up. As with every year, we lose some and gain some. Three new faces (well, their faces aren't new, they're the same ones they always had) signed up to be Regulators, something they will not regret. We covered a lot of ground, and you will be able to read about it on our web-site soon. But while I have your attention, I will go over some things that need to be addressed now. If any of you who didn't make the meeting for whatever reason, and want to posse up with the club, either at the Nor'easter, or the Mason/Dixon Stampede, you have to let us know now. The Maryland shoot in October should start accepting registrations soon, but if you want to stay at the Cozy Inn, you have to let the Mayor know, and know soon. I would think making reservations for the New Hampshire shoot is easier, since we have two hotels we can stay at. I don't know if all of you know yet, but Bones and Cottonwood have bought a new RV, and will be pitching camp along down by the river. More good news, his Pard, and former member, Six Gun Kid, also has an RV and will be camping right along side of Bones, giving us twice as much room and twice as much fun. I only wish I had an RV, so I could join them, but alas, I'm forced to stay some 10 miles away at the Cozy, damn my luck.

We talked about an indoor shoot, on February 20, at the Nassau Country Range, across from the Coliseum. I need to know, how many of our members are interested. Now I know some of you emailed me, and I do have your names on my list. But there are still many who have not contacted me, and need to do so. I would think we should have at least 25 members to make this shoot worth while. So, drop what you're doing, and shoot me a line, let me know if you're interested. The cost of

the shoot would be picked up by the club, but we would also have our monthly meeting there, and would send out for pizza and drinks, this might cost each member \$10.

Some of the other subjects we covered were: new targets, bigger targets, we were talking the size of a WW bus, something in that range, the Mayor is working on that. An Old West reenactment, a joint venture between the Mounted Long Island Riders, and the East End Regulators, sometime in June, was discussed, and with any luck, we will pull this off.

The Mayor presented the board members with "Gold" club badges, that each members will wear as long as they are in office, then to be passed down to the next generation of EER officers.

More good news, MK Coyote, the East End Regulators first life time member, went and did it again, he offered another new pair of Colts, to be raffled off, maybe as soon as the club picnic in September. This time around, 150 of these tickets will be made available to the club members, and any tickets not sold by June 1st will be made available to non club members.

I'm so sure we went over other stuff, but my fingers are starting to bleed, so I'll close for now. You can check our web site for a complete update on the meeting. Again, great seeing all of you, but I do hope you took note, I did not use the bathroom once, and thank God, I'm not on any new committees. Until that time our paths cross again, I remain.....
